Questions in the application form

Are you awaiting an assessment board decision?

If you are awaiting a decision from an Assessment Board, please mark 'Yes'. This isn't the usual wait for marks, but if you have appealed a decision or are unclear if you're able to progress. Please then give additional detail on your situation as part of your Supporting Statement.

Do you feel you have significantly higher course costs than the figures stated in the guidance notes (see below)? If so, please state them here.

Course costs are automatically assumed based on feedback from academics and students (see Fig 1). These amounts are considered as being reasonable for your course. However, if you feel that your course costs are significantly and justifiably higher than those stated in the table below, please give details.

Are you requesting financial support toward special equipment/material which is not covered by DSA, or for the cost of diagnostic test?

If eligible for DSA, you will receive support to help you manage your disability for the purposes of studying. If you are acknowledging this fact but believe you need *additional* support to help cope with your disability, then please tick 'Yes' here and give a full explanation in your Supporting Statement.

Additional information

Some information to be considered by the Panel will be automatically retrieved from university records, this includes:

Mode of Attendance in the current academic year

Your mode of attendance will either be full-time; part-time or intermitting (which includes “assessment only”). If studying for only one semester (ie for a retake), students may still be considered full-time, but only for the one semester of study. During the semester where attendance is not required, it will be expected that the student will work full-time to cover their costs. If this is not possible; please give detail in the Supporting Statement.

Course details

Details such as your course title; year of study and start date will be automatically populated through internal university records.

Course fees

Your tuition fees will be automatically populated through internal university records. If you need the Panel to be aware of any additional/related information, then please give detail in the Supporting Statement.
