Course structure*
The ACP courses are a great way to become qualified in industry standard applications. You will reach an intermediate advanced level which will give you the confidence to explore your own creative avenues within the applications. The course will start with an overview of Adobe After Effects.
We will then begin to look at the fundamentals of time lines, motion graphics and what Adobe After Effects can do.

Who is course for?
The Adobe After Effects ACP course is for creatives who want to have a foundation in this industry-standard motion graphics and visual effects software. Whether you want to create cinematic movie titles, intros, transitions or animate a logo or character you can do it with Adobe After Effects. From starting on-screen fires to making it rain, you can take any idea and make it move!
