

Connecting to the Guest WI-Fi

Open a list of the available Wi-Fi networks on your device.

Select the Guest network and click connect.

Open a browser on your device. You should see one of the following pages.

Example page: PC/Laptop

FALMOUTH UNIVERSITY **UNIVERSITY OF EXETER**

To access internet and/or local network resources you must first register this device either:-

Permanently (for 1 year)

- Using your Falmouth University (inc. Falmouth Exeter Plus) account.
- Using your Exeter University (isad ex.ac.uk) account.

Or you can register for temporary 'Guest' access (5 days):-

- Via your E-Mail address.
- Via a mobile phone(SMS text message).

NB. 'Guest' access means internet access only (ie. No access to local resources) and you will be expected to abide by the [Acceptable Usage Policy](#)

[Click here when you are ready.](#)

Example Mobile:

FALMOUTH UNIVERSITY **UNIVERSITY OF EXETER**

What would you like to do?

[Username/password login](#)
