

BEN STATHAM-WILKINS

HE/HIM FOR FALMOUTH PRESIDENT.

BET ON BEN!

REPRESENT & SUPPORT

Represent

Students and University collaborate on branding and marketing opportunities through using in-house agencies such as Gallos, MAYNE or TruthFal.

Pandemic Precautions

Ensure online learning is accessible for students who feel unsafe on campus or are high risk. Ensure a no detriment policy is implemented if the pandemic continues to affect student work.

Restructure Personal Tutor System

See that tutors address not only the academic concerns of students, but their mental wellbeing. Restructure how and when students have sessions with their tutors.

Accessibility and Wellbeing

Increase Sign Language provisions throughout the University and introduce opportunities for sign language education.

Healthy Bodies

Campaign for better membership rates at the campus gym for students so that it is more accessible.

The REP System

Get SU staff involved through more briefings so reps understand the role and have SU reassurance. Hold meetings with department Reps before and after department committees and create the Academic Executive meetings to ensure feedback is being heard and worked on.

Better MASTERS Support

More one-to-one sessions and increase support over the Summer.

DEVELOPING CAMPUS

A GREEN Campus

Pledge to hold Falmouth University accountable in committing to environmental and sustainability issues. Be more transparent in how the University are dealing with the climate emergency. Look at making the courses and campus more sustainable.

Developing The Campuses

Work with the president of student experience to improve recreational areas on both campuses for students to relax and interact with one and other.

Charity Work

More support so students can work with SU to plan more events to help charitable organisations.

VOTE

COLLABORATION & EMPLOYABILITY

Collaboration Between Courses

Continue developing Lizzy Marshall's and the SU's CoLab. Allow students to view other course lectures. Give students tours of both Falmouth and Penryn campus stores and the options to get trained/inducted on them.

Improving Employability Schemes

Increase collaboration between the career hub and courses. Initiate conversations about employability from first year and offer more direct support from second year onwards.

Workshop Festivals

Increase and improve workshop festivals to allow students to network and have a better understanding of what they want in a career.
